Index to Volume VIII

Journal of the American Society of Safety Engineers

A

Accident Effect Reporting, The Principle of. p.1
Accident Prevention as a Basic Management Function, The Concept of. p.153
Accident Prevention Situation, Tests and Measurement as applied to. *Part 1* p.97; *Part 2* p.141
Accident Reconstruction, Metallurgy and. p.27
Allison, William W., *author.* p.47, 147
Automated Machine Tools, Safety with. p.151

B

Berry, Dr. E. Lowell, *author.* p.69
Brenner, Dr. Robert, *author.* p.1
Building Industrial Hygiene into the Total Safety Program. p.156

C

Churchill, J. A., *author.* p.27, 85
Concept of Accident Prevention as a Basic Management Function, The. p.153
Control of Hazards, Selection of Solvents and the. p.32
Cryogenic Fluids, Hazards in the Use of. p.89
Current Trends and Philosophies in Safety Engineering Education. p.109

D

Dust Explosions—How to Prevent Them. p.94
Dymek, E. J., *author.* p.49

E

Education, Current Trends and Philosophies in Safety Engineering. p.109
Emergence of the System Safety Engineer. p.65

F

Fire Protection Program, Essentials of an Effective Industrial. p.49

G

Guide for Safer Pressure Systems, A. p.147

H

Hazard, W. G., *author.* p.156
Hazards in the Use of Cryogenic Fluids. p.89
Heath, Dr. Earl D., *author.* p.97, 141
Hill, Fred S., Jr., *author.* p.37
Human Factors Engineering: *see Role of Human Factors in the Control of Industrial Accidents, The.*

I

Industrial Accidents, The Role of Human Factors Engineering in the Control of. p.13
Industrial Fire Protection Program, Essentials of an Effective. p.49
Industrial Hygiene: *see Building Industrial Hygiene into the Total Safety Program; also, Selection of Solvents and the Control of Hazards.*

J

Johnson, J. L., *author.* p.59

K

Kolodner, Herbert J., *author.* p.65

L

Large Plant Safety Program Management. p.53
Lasers, Safety Considerations of. p.42

M

McCann, James R., *author.* p.94
McFarland, Harold S., *author.* p.153
Martin, J. A., *author.* p.53
Mason, Dr. Jesse W., *author.* p.159
Mathewson, Dr. J. H., *author.* p.1
Metallurgy and Accident Reconstruction. p.27
Moore, John B., *author.* p.32

N

New Process Facility, Safety Requirements for the. p.37

O

Occupational Safety, Research Needs in. p.7

P

Pressure Systems, A Guide for Safer. p.147
Principle of Accident Effect Reporting, The. p.1

R

Research Needs in Occupational Safety. p.7
Rigging: *see Will the Load Tip?*
Rockwell, Dr. Thomas H., *author.* p.7
Role of Human Factors Engineering in the Control of Industrial Accidents, The. p.13

S

Safer Lifting—Built In. p.27
Safety Considerations of Lasers. p.42
Safety Engineering as a Profession—Its Future. p.159
Safety Engineering Education, Current Trends and Philosophies in. p.109
Safety Organization—Line or Staff, The. p.59
Safety Program Management, Large Plant. p.53
Safety Requirements for the New Process Facility. p.37
Safety with Automated Machine Tools. p.151
Schoof, R. F., *author.* p.27, 85
Seat Belts and the Safety Engineer. *Part 1* p.73; *Part 2* p.105
Selection of Solvents and the Control of Hazards. p.32
Solvents and the Control of Hazards, Selection of. p.32
Spencer, Eric W., *author.* p.89
Steel Pressure Fittings. p.47
Stevens, Donald H., *author.* p.151
Sykos, Michael, *author.* p.42
System Safety Engineer, Emergence of the. p.65

T

Tarnopol, Dr. Lester, *author.* p.27
Tarrants, Dr. William E., *author.* p.13, 109
Tests and Measurement as Applied to Accident Prevention Situations. *Part 1* p.97; *Part 2* p.141
Tranquilizers on the Job—the Pro's and Con's. p.69

W

Will the Load Tip? p.85
